Closets

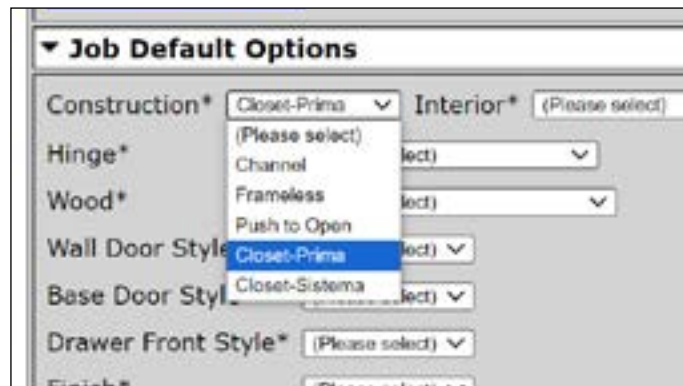

Harmoni Closet Program

Serinity in Form. Simplicity in Design.

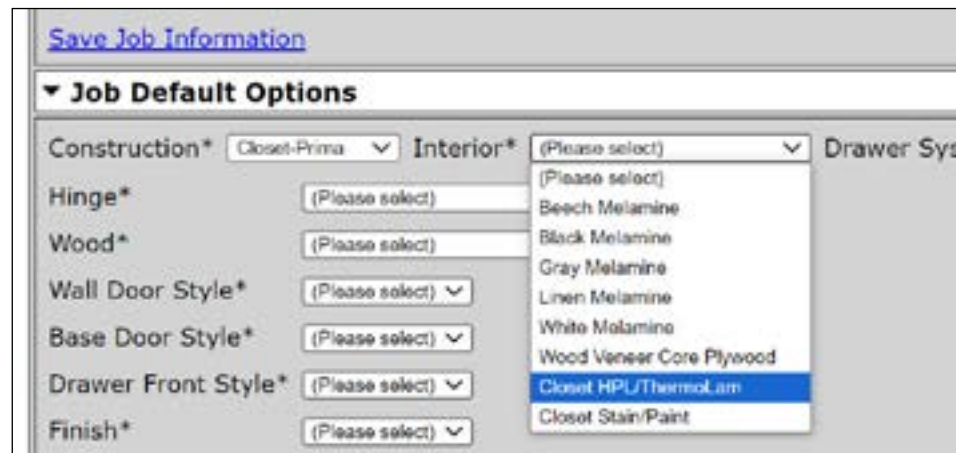

- Make Use of Harmoni Styling Options in Closets!
 - Doors
 - Materials / Woods (all except Special Veneers and Acrylics)
 - Finishes
- Utilize Trending European Hardware and Accessories
- Easy Order Configuration by Building Finished Interior Charge into Box LIST
- Box Price Consideration for Thermolams and HPL Selections (that Don't Require Finishing)
- Assembled Boxes instead of Difficult Part Assembly / Install
- Seamless Integrated "Look" for Side-by-Side Cabinets and Panels

Ordering a Prima or Sistema Closet is similar to any Harmoni order, but there are some special steps to configure your order correctly.

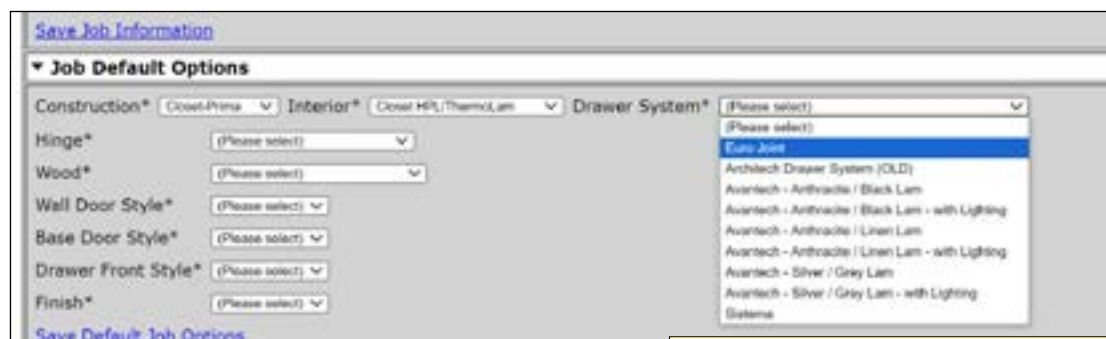

Step 1 - Select your Closet Construction

Step 2 - Select your Closet Interior

Step 3 - Select your Drawer System

If you select the SISTEMA line of cabinets, you must select the "Sistema" drawer system

Step 5 - Select your Door/Hinge (if appropriate), Wood and Finish

PRIMA Lighting - Cabinet

Ordering Prima Cabinet Lighting

Prima Closet Cabinets can be ordered by cabinet with pre-installed lighting. Cabinet lighting is 24 volt DC, and tunable to color temperature. Internal LED lighting is installed on each cabinet side with an integral diffuser that runs the full internal height of the cabinet. Wiring is done at the factory, and LED driver and all connections are run to the bottom back of the cabinet. Power must be supplied via a standard 15amp wall plug.

If a cabinet with a Closet Rod is ordered, the closet rod will be lit as well.
