Policies and Procedures

intentionally blank

CATALOG AND PRODUCT CHANGES:

In a continuing policy of product improvement, The Bentwood Companies, Inc. reserves the right to change product design, construction, materials and prices at any time without being obligated to make the same changes in previously manufactured products or displays.

PRICING

All pricing is F.O.B. our factory and does not include freight. Prices do not include state or local taxes. Actual Dealer cost is determined by applying the Dealer multiplier.

ORDERING HARMONI PRODUCT:

Only authorized Dealers may purchase products from Harmoni. Ordering Procedures are outlined in detail in the following pages.

intentionally blank

Limited Lifetime Warranty

1. The BentWood Companies, Inc. warrants its cabinetry to be free of defects in material and workmanship under normal residential usage to the original purchaser of the cabinetry for as long as they own their home.
2. These warranties shall become void if the products are misused, abused, mishandled, improperly stored, improperly installed, changed, modified, or subjected to extreme temperatures or extreme moisture levels.
3. Having determined that a warranty condition exists, Harmoni Kitchens alone will decide to repair or replace the defective item. The cost of removal of defective materials and the installation of the replacements is not covered.
4. A glazed finish from Harmoni is a custom finish to create a look and a design that is uniquely yours. The unique qualities of glazing stem from the brushing on of the glaze and the hand rubbing used to complete the glazing process. The overall appearance of the product will obtain some color variation due to the hand application versus mass-produced application.
5. Natural and Stained wood finishes are the best way to enhance the natural beauty of the wood. The characteristics of the wood will show through and are not considered defects. Such characteristics may include grain and color variations, mineral streaks, and in some cases, small knots and other blemishes.
6. This warranty only applies to defects and does not apply to the mellowing or aging of the wood or finish by the effects of natural and artificial light.
7. Doors that are warped 1/4" or less must be allowed to hang through two (2) seasons (spring, summer) before replacement will be made. Typically the door will return to its normal flat position after conditioning to its environment. Prior to requesting a replacement, please be sure that the problem is not an installation deficiency.
8. Doors over 24" wide and 62" tall are not covered under the warranty due to the unusual size and surface area of the door.
9. Finish deviations must be inspected by an authorized Harmoni representative. Determination will be made following the inspection whether to repair in the field or return the product to the factory for refinishing or replacement. No field repair may be made without approval from The BentWood Companies, Inc.
10. No field repair may be made without approval from The Bentwood Companies, Inc.

The BentWood Companies, Inc.

2007 N. Lancaster-Hutchins Road • Lancaster, TX 75134
972.227.6855

STANDARD FREIGHT PROGRAM

1. All freight charges are based on a tailgate delivery by a 72 foot tractor-trailer.
2. A Standard Delivery is defined as a single-truck tailgate delivery to a single-family dwelling. Access to delivery site must be unobstructed for a 72 foot long tractor-trailer.
3. Dealer must provide sufficient personnel to unload the delivery truck, and onto the job site. Truck Driver's sole responsibility is delivery of your order to the tailgate of the delivery vehicle.
4. A Standard Delivery also implies that a representative from the Dealership will be present at the job site to take delivery of all products. Dealer Representative must inspect products for damage to product and packaging at the time of delivery and all damage noted on the shipping form.
5. Any damage must be reported to the Harmoni factory within two business days.
6. Call Harmoni for a non-standard delivery. Any special conditions must be communicated prior to the confirmation of your order.
7. Additional Shipper charges related to off-loading deliveries to a smaller vehicle will be billed to the Dealer.

FREIGHT CHARGES

1. Freight rates are determined by region and are based on the total cubes (cubic feet) of the job. Door, finish, wood and accessory up-charges will not affect the freight rate.

Please see facing page for the freight rates in your area. Contact your Harmoni representative with any questions regarding this program.

2. Freight for parts shipped after a project is completed will be shipped using one of the following options, and will be based on the actual cost (note that Ground shipping is the standard method):

- Next Scheduled Truck / Delivery
- Ground* (standard)
- Second Day*
- Next Day*
- LTL (typically crated)
- Special Arrangements agreed upon between Dealer and Harmoni

* Subject to dimensional and weight maximums.

Job Site Delivery

For Job Site Delivery, submit a completed Job Site Delivery Form (provided in the Forms section of the Harmoni Catalog PDF).

Orders submitted using the Harmoni Pricing Program automatically have freight calculated into the Final Price.

Orders submitted via 2020 have a final cube total, but do NOT have Freight included. Instructions for adding Freight to your order are on the Harmoni website in the Dealer Portal.

2020 Orders without Freight will not be accepted.

FIGURING FREIGHT

1. Determine the mileage from the Bentwood / Harmoni Factory in Dallas, TX (75134) to the delivery site (we use typical internet-available mapping applications to determine trip length).
2. Determine the total cubes for your order.
3. Using the chart below, select the appropriate zone and multiply the cubes by the cost per cube to determine your freight charge.
4. If your computed freight charge is less than the minimum charge listed for your zone, use the Minimum Freight Charge. If your computed freight charge is more than the maximum charge listed for your zone, use the Maximum Freight Charge.
5. Harmoni orders submitted and shipped at the same time, to the same address, can be combined under one Maximum Freight Charge, up to a maximum of 1800 cubes. Deliveries over 1800 cubes must be special quoted by Bentwood.

Zone	Miles from Dallas, TX	Cities in Zone	Cost / Cube	Minimum Freight Charge	Maximum Freight Charge
1	up to 100	Dallas	\$1.50	\$230	\$715
2	101-300	Houston, Tulsa, Shreveport	\$2.30	\$405	\$1,265
3	301-500	Little Rock, Jackson, Memphis	\$3.00	\$460	\$2,400
4	501-700	St. Louis, New Orleans, Nashville	\$3.80	\$460	\$2,640
5	701-900	Atlanta, Denver	\$4.25	\$520	\$3,000
6	901-1100	Chicago, Scottsdale	\$4.95	\$520	\$3,500
7	1101-1300	Raliegh, Detroit	\$5.20	\$520	\$4,000
8	1301-1500	Miami, Los Angeles, Washington D.C.	\$5.75	\$520	\$4,500
9	1501-1700	New York, Princeton	\$6.20	\$550	\$4,750
10	1701-1900	Boston, San Francisco	\$6.55	\$550	\$5,250
11	1901 - 2300	Seattle	\$6.80	\$550	\$6,000

rev 2/2023

Deliveries over 1800 cubes must be special quoted by Harmoni.

JOB SITE DELIVERY GUIDELINES

There is increased risk of logistical issues with Job Site Delivery. The chances of delays and coordination issues are higher under these circumstances. When requesting a job site delivery, please be sure to review and follow these important guidelines:

- 1) The original order form must be marked for job site delivery.
- 2) All requests for job site deliveries must be accompanied by the following:
 - * Address and name of customer of where the cabinets are to be delivered
 - * Telephone number (if possible) of job site address or cell phone number
 - * Detailed map of how to get to the job site from the Dealer's place of business
 - * All maps must be legible. Maps must consist of street #, highway #, etc.
 - * If the job site is a new construction, provide Harmoni with lot number, contractor's name and contact information and subdivision name.
- 3) The job site must be accessible (entry and exit) to a 72-foot tractor and trailer.
- 4) There can be no signs prohibiting truck from entering the area.
- 5) The carrier must be able to deliver the merchandise without damaging neighboring property.
- 6) The job site must be accessible from the main roads. There can be no overhangs, dirt roads, sharp turns or electrical lines, on the carrier's route to the job site. At least 60 feet of roadway is required for the carrier to make a turn. All roads must be paved or rocked. No weight restrictions on roads or bridges.
- 7) The driver must be able to legally park the delivery truck without impeding the flow of traffic or unloading. Parking is very critical in metropolitan areas.
- 8) The dealer is responsible for delivering the cabinet order to the job site if a carrier determines the job site is inaccessible. Drivers have final approval on job site deliveries. Job site delivery charge will still be assessed if driver deems site inaccessible.
- 9) If delays result because of the carrier's inability to enter a job site, the dealer is responsible for all reasonable costs resulting from the delay. Certain delays out of our control may occur. Should these delays occur, and your scheduled delivery is going to be more than one hour late, our driver will notify you of the delay and let you know an approximate time of delivery.
- 10) The dealer is required to have adequate receiving personnel at the job site to unload the merchandise. The driver is only responsible for getting the merchandise to the tail of the trailer.
- 11) We recommend that all dealers visit the job site location, prior to delivery, to ensure each of the above conditions are met. Additional Shipping Charges may be billed to the Dealer if the above stated conditions are not met.

STAIN, PAINT AND FINISH DISCLAIMERS

Harmoni uses select woods and premium stains, paints and top coats to create a high quality finished product. However, color and grain variation are not considered a defect. It is the Dealer's responsibility to set this expectation with the customer. A sample is used as a part of Harmoni's order delivery process to be used as a guide only and to help the Dealer educate the customer on probable color and grain variation. The sample must be signed (by the customer to acknowledge this) and returned to the factory prior to Harmoni placing the order into production. A Painted Finish Disclaimer and a Natural Finish Disclaimer are available for the Dealer to review with their Customer and sign. These disclaimers are tools to be used to educate the customer on painted and natural finishes. The signed disclaimer is not required with the order and Harmoni does not assume any responsibility for insuring that the Disclaimer is reviewed and signed.

Disclaimer Forms are provided at the end of this catalog section.

WARPED DOORS

Doors up to 24" wide and 60" high are guaranteed against warpage of more than 1/4". Warped doors within these sizes will be replaced at no charge, one time only, once the original door has been returned to the factory. If more than one door is warped on a project, doors must be field inspected by an authorized Harmoni Representative. NOTE: Before sending a warped door back to the factory, ensure that the warped door is not a result of the cabinet being "racked" during installation.

DEFECTIVE PRODUCT / FINISH

Any complaints about defective products or finishes must be field inspected by an authorized Harmoni Representative. Harmoni reserves the right of either approving field repairs or returning the defective materials to the factory for repair / replacement. For Harmoni to provide credit for any field repairs, an estimate of cost, Harmoni Representative inspection, and written approval from the Factory must be provided before the repairs are scheduled.

CUSTOMER SERVICE SUPPORT

Customer Service is available Monday through Friday to answer questions, and assist in any way possible.

Customer Service Hours are:
8:00AM - 5:00PM CST Monday - Friday
Phone Number - 972-227-6855

You may contact Customer Service via email at:
customerservice@harmonikitchens.com.

SAMPLES

Product samples are effective tools to create excitement with your client and to set expectations around the final door style and finish that they will receive from Harmoni. All kitchen orders placed require a sample for the customer to review, sign and return. If you want to retain a sample for your client, order an additional sample. Samples will ship to the Dealership in approximately 5-7 working days.

ORDERING APPROVAL SAMPLES

Submit an order for the material and finish combination your Customer has requested using the pricing program or supplied Project Sample Block Order Form. Charge for an approval sample is \$65 NET (incl. standard 2nd Day shipping). All samples can be ordered via the Harmoni Pricing Program or supplied Sample Chip Order Form using the following nomenclature. If you need assistance in ordering a sample, contact customerservice@harmonikitchens.com.

It is the Dealers responsibility to return the Sample back to Harmoni. For your protection when returning your sample block to Harmoni, use a service that also provides you a tracking number.

SAMPLE COLOR BLOCKS**HSAMPLE-A**

DISPLAYS

Harmoni is committed to their Dealers success and will partner with them to aggressively promote, market and sell the product. Dealers are expected to make an investment in a minimum of eight (8) linear feet of display located prominently in their Showroom. Harmoni offers two generous discount programs. Contact your Representative or Customer Service for details.

Order Process

Harmoni's quoted Lead Time is 6 to 8 weeks (to deliver) from the date the order is confirmed. The following items are required to confirm your order:

1. Order generated by the Harmoni Pricing Program is submitted, **DO NOT SEND DRAWINGS**, orders are processed as submitted. Your Order will be acknowledged upon receipt.
2. Required forms are received (Appliance Panel, Wainscot Panel form, etc.)
3. Job Site Delivery Request Form (if requesting a jobsite delivery)
4. Approved Sample is received at factory.
5. 50% Deposit is paid.
(Order is Confirmed, 2 working day approval period begins)

Sample Approval Policy

All orders require a signed sample by the customer acknowledging that they have reviewed the finish. This is required to establish an understanding by Harmoni of the customer's expectations and for the customer to acknowledge that there will be variances in grain pattern, color and distressing which is characteristic of Harmoni's products. Return the signed Approval Sample immediately! Your order will not be scheduled for production until we have received the approved sample, deposit and any pertinent forms. If you have not ordered a sample do so immediately. Samples require 5-7 working days to be produced. We recommend you order an approval sample as soon as the Client has selected their material and finish.

Order Confirmation

An Order Acknowledgment will be provided within two business days of the Online Order being submitted. ALL boxes MUST be marked as "Received" to call your order clean. Once the order is clean, you will receive the final 48 Hour Confirmation. Review the entire order. If approved, sign and return the cover page only. If any changes are to be made, DO NOT hand write on the confirmations or email any changes-- immediately call us to reactivate your order so changes can be made by you. Once changes are made, save your order, and resubmit. We will then resend a revised final confirmation that reflects the changes made. Your lead time starts when the final confirmations are signed and returned.

Shipping Confirmation

You will receive a Price and Load Date Confirmations within two weeks of your order being approved. A Harmoni associate will contact you the week of or the week before your order ships, to coordinate final shipping logistics, and to confirm the day of delivery. It is necessary that you have a representative present during the delivery of your order to facilitate the receipt of the job.

Changes to Orders

Order Cancellation Request Form is provided in the Forms section of the Harmoni Catalog PDF .

Changes to orders are not possible. Changes must be made by cancelling the order and resubmitting as a new order with the necessary changes.

Pricing Harmoni

Authorized Dealers may log in to their Account online to access the Harmoni Pricing Program. A tutorial for the use of the Pricing Program is available online.

Harmoni also offers a 2020 Design Software catalog. Orders can be submitted via 2020.

Freight Repair / Replacement Claims

All shipping damage to Product or Packaging must be reported to Customer Service within 48 hours of accepting delivery. If a damaged item needs to be replaced, the Customer Service Representative assigned to the job will reorder the item to be replaced and shipped at no charge in approximately seven (7) working days. Document damage with pictures and send to the Customer Service Representative. If a damaged item needs to be repaired, you and the Customer Service Representative will jointly determine who will perform the work. If a field person is required, they will be scheduled as soon as possible. If it is determined that the Dealer will handle the field repair, Harmoni must receive a written estimate and provide authorization for the repair prior to the performing the work. A credit for the repairs will be issued to the Dealer's account. Coordinate with the factory to confirm shipping before scheduling your installer.

Service Orders

To quickly requisition all items required after the delivery of an order, fill out a Service

Order and send it to Customer Service. If an item included on the Service Order is a result of Harmoni's error, do not include the items cost in the charge field. This item will be shipped typically within seven (7) working days at no charge to the Dealer. If an item included on the Service Order is an oversight or error on the Dealer's part, include the net cost of the item in the charge field. These items typically ship in seven (7) working days or less. Shipping charges will be added and an invoice will be issued once the item ships. Indicate the required method of shipment on the Service Order. Coordinate with the factory to confirm shipping before scheduling your installer.

Service Order Confirmation

Once a Request for Service has been received, a factory-generated Service Order with appropriate pricing based on your Request for Service will be sent to you within two working days. You must notify the factory of discrepancies in parts or pricing within one business day. The Service Order must be signed and returned in order to be released to Production. Once returned, the Service Order will be released to Production without further confirmation. If you do not receive a factory-generated Service Order within two business days, please contact the factory to make sure your request was received.

Request for Service / Replacement Form is provided in the Forms section of the Harmoni Catalog PDF .

intentionally blank

This form is provided for Dealer use in educating their client in the selling process.
It is the Dealer's responsibility to make sure the client understands Harmoni's
standing on Painted Finishes.

CUSTOMER INFORMATION FORM

PAINTED FINISH DISCLAIMER

Painted cabinetry is one of the more desirable finishes in the industry today. Because Harmoni Kitchens is dedicated to satisfying customer requests, we offer very high quality painted finishes. We take extra care in the preparation for the painted finish, and use additional precautions in the shipping and handling of the finished product.

However, painted finishes have a number of inherent characteristics that can present unique challenges. For instance, because a painted finish is so smooth, imperfections are magnified. Even the smallest imperfection will stand out on a painted finish that would normally go unnoticed on a stained finish.

Although Harmoni Kitchens is a recognized leader in painted finishes there are several common circumstances that may occur including bridging and pooling of paint and fine surface cracks at joints due to contraction and expansion of the underlying product. Harmoni takes great care to minimize these occurrences. However, they are inherent with painted finishes and are not a warranty issue.

intentionally blank

This form is provided for Dealer use in educating their client in the selling process.
It is the Dealer's responsibility to make sure the client understands Harmoni's
standing on Natural and Light - Colored Finishes.

CUSTOMER INFORMATION FORM

NATURAL (CLEAR) AND LIGHT STAIN FINISH DISCLAIMER

Natural (clear) and light stain finished cabinetry is one of the more desirable finishes in the industry today. Because Harmoni Kitchens is dedicated to satisfying customer requests, we offer very high quality natural (clear) and light stain finishes. We also take extra care in the selection of color and graining of the wood.

However, no two trees are alike. Natural variations in color and graining are unique characteristics of wood. Color and grain differences are a natural and acceptable condition of fine wood products. Although we select only top quality products from reputable companies, color variations in natural (clear) and light stain finishes can be magnified.

Although Harmoni is a recognized leader in the ordering, selecting and processing of materials used in clear and light stained finishes there will be inherent color and grain variation.

intentionally blank

This form is provided for Dealer use in educating their client in the selling process.
It is the Dealer's responsibility to make sure the client understands Harmoni's
standing on Sherwin Williams Color Matching.

CUSTOMER INFORMATION FORM

SHERWIN WILLIAMS COLOR MATCHING

Paint matching is an appealing option to some clients, due to the fact that they can pick a specific coordinating or contrasting color for their cabinetry. Because Harmoni Kitchens is dedicated to satisfying customer requests, we offer Sherwin Williams Color Matching from colors available in the Sherwin Williams Fan Deck.

This is not a custom color match. This is a paint matching program based on standard Sherwin Williams color formulations. Harmoni will mix the paint color, and provide you with a Job Approval Sample that we feel is an acceptable match to your Sherwin Williams color selection under our controlled conditions at the factory.

However, the appearance of color is subjective, and colors may appear different depending on various circumstances, such as light source, viewing angle, ambient color, reflectance (sheen), and subjective differences between individuals viewing the same color.

Your Job Approval Sample will arrive with a standard 20 sheen, but the color swatches in the Sherwin Williams Fan Deck are flat (0 sheen). The Sherwin Williams Fan Decks are printed representations of each color, and are as accurate as printing methods will permit.

Frameless Design Standard Construction

CABINET DEPTH: Outside / Inside :: Wall = 12" / 11 $\frac{7}{16}$ "; Base / Tall = 24" / 23 $\frac{7}{16}$ "
Cabinet Depth does not include door/drawer front thickness & bumper pad

END PANELS: $\frac{3}{4}$ " thick material on non-exposed ends. $\frac{1}{2}$ " thick material plus Finished End material on exposed ends ($\frac{3}{4}$ " thick overall). End panels are screwed together into top and bottom deck. Exposed edges are edgebanded with coordinating veneer.

FINISHED END PANELS: A $\frac{3}{16}$ " thick end panel is laminated onto existing end panel to match exterior. (Standard box comes with exposed ends unfinished.) Finished End Panels are vertical grain only, except as noted.

TOP & DECK: $\frac{3}{4}$ " thick material. Screwed together with end panels.

BACKS: $\frac{1}{2}$ " thick material. Backs are dadoed into end panels and deck and are secured with glue and metal fasteners.

INTERIOR SHELVES: $\frac{3}{4}$ " thick material. All edges of shelves are banded with matching material. All tall, wall and base cabinets with shelves have full depth adjustable shelves.

INTERIORS: Standard interior is Beech print thermofused laminate melamine. Other thermofused laminate melamines and wood veneer core plywood are also available. Wood interiors are sealed and top coated.

DRAWER BOXES: $\frac{5}{8}$ " thick solid hardwood drawer material on all 4 sides. Bottoms are $\frac{3}{16}$ " material dadoed into all 4 sides and secured with glue and metal fasteners. At least one front to back $\frac{1}{2}$ " thick stretcher is added to the underside of each drawer for added support. Drawers are finger jointed at all four corners.

DRAWER GUIDES: Full access, self-closing, soft-close undermount with lifetime guarantee. (Soft-close not available on Push-to-Open cabinetry)

TOE KICKS: Cabinets are built without toe. Adjustable leveler feet provided.

HINGES: Fully-concealed, 110°, 6-way adjustable. All hinges are lifetime guaranteed.

STAINS & FINISHES: All stains are carefully applied by hand. All wood exterior and interior surfaces are finished with 1 coat of catalyzed sealer and 2 top coats of catalyzed varnish.

Harmoni Box Interior Charges

All Interiors meet CARB II Standards.

**STANDARD** • Beech "Look" Melamine

0% Upcharge

Thermafused beech "look" melamine over furniture board.

OPTIONAL • White, Grey or Black Melamine

0% Upcharge

Thermafused melamine over furniture board.

**OPTIONAL** • Linen Print Melamine

5% Box Only Upcharge

Thermafused printed melamine over furniture board. Upcharge is applied to BOX PRICE ONLY.

OPTIONAL • Wood Veneer Core Plywood*

15% Box Only Upcharge

Wood veneer over veneer core substrate. Upcharge is applied to BOX PRICE ONLY.

*** PLYWOOD BOX ...PLEASE READ!!!**

When ordering a "PLYWOOD" interior, the core cabinet box will be constructed from high-quality veneer-core plywood. However, some components of a job (1/4" finished ends, adjustable shelves, etc.) may incorporate MDF core parts for enhanced stability and overall quality of finish and construction.

Standard Door Hinge- Frameless and C-Channel Cabinetry

Fully Concealed Hinge System

Features:

- All metal construction-nickel plated
- Integral Soft-Close mechanism
- Completely concealed
- Six (6) way adjustment
- Tool-free mounting of hinge to mounting plate
- 110° opening
- Doors thicker than $\frac{3}{4}$ " require 95° hinges. See Door pages for door thickness

Standard Door Hinge- Push-to-Open Cabinetry

Fully Concealed Hinge System

Features:

- All metal construction-nickel plated
- Completely concealed
- Four (4) way adjustment
- 110° opening
- Doors thicker than $\frac{3}{4}$ " require 95° hinges. See Door pages for door thickness
- Spring-loaded plunger used to assist

Soft-Close Hinges are NOT available with Push-to-Open Cabinetry

S-8

Standard Drawer Box

Standard Drawer Box Wood Euro Joint Drawer

- Beautiful $\frac{5}{8}$ " solid hardwood box with finger joint construction at all 4 corners.
- Drawer has a $\frac{3}{16}$ " plywood drawer bottom dadoed into all 4 sides.

Sanded on Bottom Edge

Drawer is supported with $\frac{1}{2}$ " plywood under-mounted stretcher. Number of drawer supports increases as width of drawer increases.

This feature adds strength to the drawer bottom while adding additional interior drawer space.

Harmoni Drawer Box Heights are $3\frac{7}{8}$ ", $6\frac{1}{4}$ " or $9\frac{5}{8}$ " depending on the available space in the cabinet drawer opening. Reducing the height of a cabinet with drawers may necessitate changing to a shorter drawer box.

Standard Drawer Guide
Full-Access

This versatile system mounts directly underneath to show off the craftsmanship of wood drawers instead of compromising their appearance with bulky hardware. Inside each drawer runner is a concealed carriage mechanism containing stainless steel bearings that control vertical and horizontal forces and provide the guide’s smooth and quiet running action.

- Full concealed
- Zinc coated steel
- Spring loaded-self closing
- 66 lbs load capacity
- Mechanism under drawer box allows four-axis adjustment.
- Minimum 12" cabinet depth

Optional Drawer Guide - Hettich Avantech Metal Drawer System

Tall Drawer Configuration

Deep Drawer

- approximately 4", 5³/₈", 7¹/₂" and 9³/₈" tall, depending on application.

Avantech Adjustable Metal Roll-Out Trays

All Avantech roll-out trays feature the same durable construction and quality drawer guide as the Avantech drawer box.

Avantech roll-outs are available in 4¹/₈", 5⁵/₈" and 7¹/₂" face heights (ordered online as 4, 5 and 7).

- 4" tall shown

Avantech Roll-Outs must be ordered on each cabinet using nomenclature.
See cabinet sections.

Roll-out finish and bottom/back will match your drawer selection.

Optional Drawer Guide with Lighting - Hettich Avantech Metal Drawer System

Select appropriate Avantech Drawer option with Lighting in Pricing Program

Avantech offers a self-contained battery-powered lighting option. Lighting bars match the drawer side material color, are fitted to the top edge of the Avantech drawer box, and shine down into the drawer box automatically when the drawer is opened.

Battery pack is mounted to the back of the drawer box, is easily removable, and rechargeable via included USB cable when needed.

Select the appropriate drawer system under Default Job Options when placing your order to add this option to each drawer box in your order. Roll-Outs should be ordered using separate nomenclature.

Avantech - Silver / Grey Lam - with Lighting

Avantech - Anthracite / Black Lam - with Lighting

Avantech - Anthracite / Linen Lam - with Lighting

\$150 Upcharge per Drawer

Lighting option can also be applied selectively, rather than globally using position-specific nomenclature.

- MDLIGHT-1** Add lighting to METAL drawer box - TOP DRAWER
- MDLIGHT-2** Add lighting to METAL drawer box - SECOND DRAWER
- MDLIGHT-3** Add lighting to METAL drawer box - THIRD DRAWER
- MDLIGHT-4** Add lighting to METAL drawer box - FOURTH DRAWER
- MDLIGHT-5** Add lighting to METAL drawer box - FIFTH DRAWER
- MDLIGHT-6** Add lighting to METAL drawer box - SIXTH DRAWER

\$150 Upcharge per Drawer

Optional Roll-Out with Lighting

S-13

Optional Metal Roll-Out with Lighting - Hettich Avantech Metal Drawer System

Avantech lighting option may also be applied to Avantech Roll-Outs.

Lighting option for Roll-Outs must be applied selectively using drawer-specific nomenclature. Global "Default Job Option" selection does NOT apply.

MROTLIGHT-4 Add Lighting to a 4" tall METAL roll-out

MROTLIGHT-5 Add Lighting to a 5" tall METAL roll-out

MROTLIGHT-7 Add Lighting to a 7" tall METAL roll-out

\$150 Upcharge per Roll-Out

Hardwood Descriptions

Alder +5% Overall Upcharge

Brown to pink in color. It is a medium hard wood in density and finishes well in most stain colors, light to medium. In darker finishes, it has a tendency to splotch, but stills blends well. Glazed finishing accentuates the wood grain, causing the wood grain to telegraph through the finish.

Cherry +10% Overall Upcharge

Pink to light brown in color. May have naturally occurring thin pockets of dark mineral deposits.

Maple +10% Overall Upcharge

White to tan to pink in color. Finishes well in very light stain colors only.

Paint Grade No Upcharge

Available in subtly grained woods. Subtle grain woods allow for a smooth painted finish. Some panel material may contain MDF.

Paint Grade Oak +10% Overall Upcharge

Allows Oak grain to telegraph through a painted finish for added interest.

Chestnut Oak No Upcharge

Medium brown to gray in color. Chestnut Oak is not selected for color, so expect to see light to dark colors in the same door. Also has knots, checks and cracks that are not defected out of the finished product.

Plain Sliced Oak +10% Overall Upcharge

A dense, deep grained wood. Flamed grain pattern is usually prominent.

Rift Cut Oak +20% Overall Upcharge

A dense, deep grained wood. Wood is rift-cut to give the wood a nearly parallel grain pattern.

Rustic Walnut +20% Overall Upcharge

Similar to regular Walnut, but more color variation. More knots in door panel can be expected.

Walnut +25% Overall Upcharge

Pale pink to dark reddish brown. May have naturally occurring thin pockets of sap wood. Beautifully finished with darker stains.

Hardwood Characteristics

Hardwoods are natural products with unique, widely varying characteristics, based on things like wood specie, rate of tree growth, and time of harvest.

See the following table for general information about the wood species used by Harmoni.

	Alder	Cherry	Chestnut Oak	Maple	Paint Grade	Paint Grade Oak	Plain Sliced Oak	Rift Cut Oak	Rustic Walnut	Walnut

Special Veneers

Special Veneers +20% Overall Upcharge
Exotic Veneers spanning a wide variety of woods. Backs and edgetape are either matching or complimentary wood specie. Clear finish only.

NOTE: Limited trim (Crown, Scribe, etc.) is available in Special Veneers.

Due to the specialized nature of these veneers, variation in color and grain can be expected when compared to samples.

S-30

Standard Paints with Glaze

Harmoni offers these paints with glaze to meet your needs. This grid indicates the available paints with glaze colors.

To enhance product stability, some doors, drawer fronts and end panels may be partially, or completely, made of MDF material.

Finish Upcharge does not include wood upcharge

Finish Name	Paint Grade
Bleached Linen	30%
Chalk	30%
Snowdrift	30%

Harmoni offers a palette of Crafted Finishes to meet your needs. Crafted Finishes are combinations of stain or paint, glazing and distressing techniques to produce a unique appearance. This grid indicates the available finish/wood combinations.

Standard Harmoni Crafted Finishes are indicated below, and the woods on which they are available. Upcharges are indicated.

Finish Upcharge does not include wood upcharge

Finish Name	Alder	Chestnut Oak	Rustic Walnut	Paint Grade
Aged Oak		15%		
Burnished Walnut			20%	
Caliche				25%
Charred Oak		15%		
Hewn Walnut			20%	
Stone Washed	30%			
Tanned Oak		15%		
Weathered Oak		15%		
Wrought Iron	20%			

Harmoni offers you a process where you can specify a paint color other than the Standard Paints already offered, by selecting a paint color from a current Sherwin Williams Fan Deck. Harmoni formulates your selected color using the most recent color formulations provided to us by Sherwin Williams.

When entering your Harmoni order, select "SW Color Match" from the Finish drop down menu under Job Default Options.

The image shows a screenshot of a web form titled "Job Default Options". It contains several dropdown menus for configuring a kitchen order. The "Finish" dropdown menu is highlighted with a red circle and has "SW Color Match" selected. Other visible options include "Construction" (Frameless), "Hinge" (Concealed Frameless Sensys), "Wood" (Paint Grade), "Wall Door Style" (Alba), "Base Door Style" (Alba), and "Drawer Front Style" (Alba).

You must also submit a Sherwin Williams Paint Match form indicating your selected color number. You will be charged \$150 NET for the Color Match-- this includes the standard 10" x 10" Job Approval Sample.

Your Job Approval Sample will ship in 7-10 days. Once your sample arrives, you must sign and return it to the factory in order for your Harmoni order to be complete.

This program is not intended for Displays or Display Sample Doors.

Open for Glass

Open for Glass Door Specification

Open for glass doors are made to accommodate 1/8" thick glass.
Rubberized Glass Retention Trim is cut and fitted to door.

PLEASE NOTE: GLASS IS NOT INCLUDED.

Typical open for glass section for all door styles.

Modification to Convert a Paneled Door into a Mullion Door

- Selected Doors Only
- Mullions not permitted for doors less than 15" wide
- Mullions replace Door Panel
- Doors are prepped for a single piece of $\frac{1}{8}$ " thick glass (not provided)
- Includes Rubberized Glass Retention Trim
- Mullions match door cope profile, except for Carlisle, which are flat
- Lites are equally dimensioned
- Number of cross-members typically matches number of cabinet shelves
- Does NOT include Finished Interior
- Cabinet shelves are configured to mount on standard line boring holes.
- [More Information and Nomenclature on following pages](#)

To Order a Wall Cabinet, 30" x 36" with Mullions in Shaker Doors, and Standard Interior, enter:

Qty	Nomenclature
1	W3036
2	MULL-T6-SHA

(two shelves in cabinet)

To Order a Base Cabinet with Full Height Doors, 15" wide with Mullions in Portofino Doors, and Finished Interior, enter:

Qty	Nomenclature
1	BFH21
1	MULL-B6-POR
1	B-FIN-INT

(two shelves in cabinet)

The Vetro Door is available as an accent in your design, and is accessed in the Pricing Program as an attachment to a cabinet, not as a default door selection.

frame cross section - 2" wide

To select the Vetro door for a cabinet in the Pricing Program,
build the following nomenclature as follows

- (A) Type the Type Code
- (B) Type "Vetro"
- (C) Type the Frame Color Code
- (D) Type the Glass Color/Pattern Code

W-VETRO-BL-RSIL

Example shows a Vetro Wall Door
with Black Frame and Rustic Silver Glass

Type

	Code
Drawer Front*	D
Wall Door	W
Base Door	B
Tall Door	T

Frame

	Code
Aluminum	AL
Black	BL
Brushed Steel	BS

Solid Color Glass

	Price
Drawer Front*	450
Wall Door	550
Base Door	550
Tall Door	1100

Castle = **CAST**

Silk = **SILK**

White = **WHT**

Patterned Glass

	Price
Drawer Front	650
Wall Door	850
Base Door	850
Tall Door	1900

Antico = **ANTI**

DiMonte = **DIMO**

Rustic Silver = **RSIL**

Frost Weave = **FRWV**

Mocha Weave = **MOWV**

Platinum Weave = **PLWV**

Slate Weave = **SLWV**

* must use Avantech drawer system

No door hardware can be applied to the Vetro door. Push To Open Construction, or modifying cabinet with Change Deck Location is recommended. Further explanation of this modification is available in the Wall section of this catalog.

Glass Doors without Pulls - Vista

D-73

The Vista Door is available as an accent in your design, and is accessed in the Pricing Program as an attachment to a cabinet, not as a default door selection.

Frame Colors

Aluminum
Black
Brushed Steel

Glass Colors

Acid Etched Glass
Bronze Tint Glass
Clear Glass
Smoke Tint Glass

frame cross section
2" wide

To select the Vista door for a cabinet in the Pricing Program,
use the following nomenclature

Wall Door

<u>Wall Door</u>	<u>Aluminum Frame</u>		<u>Black Frame</u>		<u>Brushed Steel Frame</u>

Blind Corner Wall Cabinets

Blind Corner Wall

Single Wide - 24" to 36" wide

12" Deep

When installed into corner, 1³/₄" of center stile remains exposed.
To determine the approximate width of actual exposed cabinet, subtract the depth of the intersecting cabinet and exposed stile from the blind cabinet width. See "Designer Note - Blind Corner" page when intersecting cabinets of different depths.

When reducing cabinet width with **DIM-HWRW**, reduced dimension comes from the door end, not the blind end.

Designer Note - Blind Corner

W-33

“Pulling” a Blind Corner Wall Cabinet allows you to maintain symmetry along a wall, while maximizing corner space. This action will allow you to adjust the location of the apparent (or visible) portion of the cabinet.

Example using a **WC2436L**

When placed all the way into the corner, a 24” wide Blind Corner Wall has 12” of width hidden behind the adjacent perpendicular cabinet, 1 ¾” of exposed finished surface that acts as a filler, and a door that appears as a 10 ¼” cabinet.

If you want to reconfigure the door/drawer width of the cabinet, and pull the cabinet off the wall, the cabinet door opening can be adjusted using **W-CONFIGURE** in the Pricing Program, and submitting the appropriate “Blind Corner Modification Form” from the Forms section of the PDF catalog.

For example, a WC2436L can be ordered, entering **W-CONFIGURE**, and reconfigured to have a door 12” wide. The resulting blind portion of the cabinet would then be 9” wide (and installed 3” off the wall).

If not being pulled from the wall, 15” deep blind wall cabinet intersecting another 15” deep wall cabinet need to have **W-CONFIGURE** nomenclature added to change the blind width.

Intersecting		Blind Cabinet must be pulled 3” from corner, or use W-CONFIGURE

Blind Peninsula Wall Cabinets

Blind Peninsula Wall Cabinets Single Wide

When installed into corner, 1 3/4" of center stile remains exposed. To determine width of actual exposed cabinet, subtract the depth of the intersecting cabinet from the blind cabinet depth. Cabinet will be braced on both faces with a wide top rail.

Two Door Bypass Cabinets

Bypass Door Cabinets

Two Doors - 36" to 48" wide

Cabinet is an assembly of two equally sized cabinets, with either $\frac{3}{4}$ " or $1\frac{1}{2}$ " surround.

Doors are on independant tracks, and slide full length of cabinet within the end panels. Doors soft close at each end.

Side Section

Top Section

Two Door Bypass Cabinets

W-51

Bypass Door Cabinets

Two Doors - 36" to 48" wide

May be reduced to 15" tall.

12" deep cabinets have $9\frac{3}{8}$ " of usable inside depth

15" deep cabinets have $12\frac{3}{8}$ " of usable inside depth

May not be reduced to less than 36" wide

Cabinet is an assembly of two equally sized cabinets.
Example-- a 36" wide cabinet with $1\frac{1}{2}$ " surround
is composed of two $16\frac{1}{2}$ " wide cabinets.

Read before ordering a "-P" Appliance Cabinet!

-P

If you order a blank appliance plywood panel (nomenclature with a "-P" suffix), a removable blank panel will be attached to cabinet with Keku clips for field cutting and appliance installation.

Cabinet is shipped with complete back, and back can be cut out in the field for proper appliance installation.

Read before ordering a "-C" Appliance Cabinet!

-C

If you order a cabinet with a preconfigured appliance plywood panel (nomenclature with a "-C" suffix), you must include the appropriate Harmoni Appliance Panel Cut-Out Order Form (available in the Forms Section of the Harmoni PDF Catalog). Harmoni's responsibility is to configure your panel opening according to your supplied dimensions. If the appliance is not configurable in the allotted space, you will receive notice that your order has been placed on hold pending further clarification by you.

Cabinet is shipped with complete back, and back can be cut out in the field for proper appliance installation.

HOW TO PRICE A NON-STANDARD WALL CABINET

Reduce Width, Height or Depth

This “reduce dimension” nomenclature must be used in the order process to allow for documenting your change to a cabinet. Use the following nomenclature in the Pricing Program, and add your requested dimension to the appropriate field.

Wall Decrease Depth	DIM-HWRD	no charge (indicate desired Depth)
Wall Decrease Height	DIM-HWRH	no charge (indicate desired Height)
Wall Decrease Width	DIM-HWRW	no charge (indicate desired Width)

Increase Depth

Wall Increase Depth up to 25”	DIM-HWID-25	\$150 LIST (indicate desired Depth)
Wall Increase Depth up to 30”	DIM-HWID-30	\$200 LIST (indicate desired Depth)

- Adjustable Shelves and Tray Dividers grow with the depth of the cabinet.
- Hardware-related cabinet accessories DO NOT increase in depth with the cabinet.
- Wooden Drawer Boxes & Roll Outs increase in depth with the cabinet up to a 27” deep cabinet only.

HOW TO RECONFIGURE A WALL CABINET

Change Drawer and Drawer Front Heights

Use this nomenclature to modify the door and drawer heights of Countertop Wall Cabinets. Proper form indicating your desired door and drawer front heights must also be submitted. Harmoni will order your cabinet using standard reveals. Forms are available in the Forms section of the Harmoni PDF Catalog.

Configure Wall Cabinet W-CONFIG \$135

Allowable Minimum and Maximum Door and Drawer Front heights
for reconfigured cabinets are:

	Min Height	Max Height
Drawer Front	5.9375	24.75
Door	11.75	61.75

ONLY FORMS FILLED OUT ELECTRONICALLY ARE ACCEPTED.

Electronically completed forms will total your door / drawer front heights, including standard reveals, to allow you to confirm correct final cabinet height.

Forms are available in the Forms tab of the Harmoni PDF catalog.

Notes--

- Doors over 42” tall (including Open for Glass) will have a centered mid rail
- Changing Drawer Front Heights may result in automatic change in Drawer Box Height. (Maximum Drawer Box Height is 9.875” tall.)
- Five-Piece Drawer Fronts will always have a horizontal grain panel
- Five Piece Drawer Fronts over a height threshold have wider top and bottom rails like corresponding door style. See door section for additional notes.

Custom cabinet configurations, or cabinets above 96" tall can be made by means of stacking cabinets. Combinations of existing Harmoni Wall and Tall cabinets can be ordered to create unique cabinet configurations, or to take overall cabinet heights up to 120" tall. Stacked cabinets are assembled at the factory to ship as one unit under a single finished end panel where applicable.

Ordering stacked cabinets in the Harmoni Pricing Program is straight-forward, but there is a strict process to ensure your intended configuration.

- A stacked cabinet configuration must only be ordered under a single Item Number in the pricing program with associated pieces and modifications entered under that Item number (1.01, 1.02, 1.10, 1.11, etc.)
- Always order stacked cabinets starting with lowest cabinet, and work up.
- Stacked Wall Cabinets must be at least 12" tall
- Stacked Cabinets must all be the same depth
- Finished Ends must be ordered for each unit in the stacked configuration

Oversized cabinets present unique problems in shipping and installation. Make sure your cabinet can be brought into the work site and installed correctly.

Use the nomenclature **W-STACK**, **B-STACK** and **T-STACK** to instruct the factory to join an upper cabinet to a lower cabinet, and adjust the door reveals between stacked units.

	Price	Cu	
W-STACK	no charge	0	Stack cabinets up to 96"
B-STACK	no charge	0	Stack cabinets up to 96"
T-STACK*	725	32	Stack cabinets up to 120"

*Nomenclature for Pricing and Cubes for T-STACK are to account for oversized materials, and additional shipping costs.

Stacking Cabinets

W-71

To order a

- 114" Tall x 24" deep Tall Cabinet
- adjustable shelves in lower section
- a two-door cabinet at top
- tray dividers in top section
- maintain correct reveals between doors
- finished ends on both sides

1.00	1	U3696-24	Utility Cabinet
1.01	1	TFE-B	Finished Ends - Both
1.02	1	USK3624	Utility Shelf Kit
1.03	1	T-STACK	Stack Cabinet
1.10	1	RW3618	Refrigerator Wall Cabinet
1.11	1	WFE-B	Finished Ends - Both
1.12	4	TD-T	Tray Dividers in upper cabinet (4)
1.13	1	FLUSHDOOR-BOTT *	Flush Doors to Bottom of Cabinet Box

* Due to material constraints, stacking over 96" may result in double fixed shelves at the point of attachment. Be sure to use appropriate nomenclature to maintain correct door reveals between cabinets.

To order a

- 60" Tall x 12" deep Wall Cabinet (42" lower cabinet / 18" upper cabinet)
- maintain correct reveals between doors
- finished end right

1.00	1	W2442L	Wall Cabinet
1.01	1	WFE-R	Finished Ends - Right
1.02	1	W-STACK	Stack Cabinet
1.10	1	W2418L	Wall Cabinet
1.11	1	WFE-R	Finished Ends - Right
1.12	1	FLUSHDOOR-BOTT †	Flush Doors to Bottom of Cabinet Box

† To maintain the correct reveals between the stacked cabinets, be sure to adjust the door heights appropriately.

W-72

Cabinet Modifications

Finished End

All wall cabinets come standard with exposed ends unfinished.

Countertop Wall Cabinet

Finished Interior

Interior is finished to match cabinet exterior. Cabinet exterior (top and bottom) will match wood specie and finish.

Charge is per cabinet up to 36" wide / 48" tall.

Product Code	Price
FIN-INT-WALL	425

In runs with open or finished interior wall cabinets, it may be desirable to order Finished Bottom and/or Finished Top on adjacent cabinets with standard interiors.

Change Deck Location - Unfinished Bottom

The deck and back of a Frameless cabinet can be moved up to create a 1½” recess under the cabinet. Door height does not change. Inside edge of endpanel matches cabinet interior.

If you are changing the deck location of a diagonal corner cabinet, you must use **W-CDL-B** since both end panels must be full height.

		Product Code	Price
Raise Deck ¾”	Left End Panel Remains unchanged / Deck and Right End Panel Raised 0.75”	W-CDLS-L	70
	Right End Panel Remains unchanged / Deck and Left End Panel Raised 0.75”	W-CDLS-R	70
	Left and Right End Panel Remain unchanged / Deck Raised 0.75”	W-CDLS-B	70
	Deck and both End Panels Raised 0.75”	W-CDLS-C	70

Raise Deck 1½”	Left End Panel Remains unchanged / Deck and Right End Panel Raised 1.5”	W-CDL-L	70
	Right End Panel Remains unchanged / Deck and Left End Panel Raised 1.5”	W-CDL-R	70
	Left and Right End Panel Remain unchanged / Deck Raised 1.5”	W-CDL-B	70
	Deck and both End Panels Raised 1.5”	W-CDL-C	70

DESIGN IDEA

This application leaves the exposed portion of the end panel, as well as the bottom of the cabinet, the same material as the interior of the cabinet box.

Use light rail to finish out recess.

Cabinet Modifications

W-77

Add a Faceframe to an Open Cabinet

A Hardwood Faceframe can be ordered and applied to an Open Wall Cabinet. Faceframe will maintain door edge, and typical reveals at top, bottom and sides. Inside edge of faceframe is square.

Stiles and Rails of faceframe are 1 3/8" wide. Cabinet deck will flush to top of bottom rail.

HARDWOODS ONLY.

Faceframe outside edge matches door profile

Overlay Fillers - All Edges Profiled

Actual height of overlay is 1/4" shorter than nomenclature height. Use DIM-HWRH to change height of taller overlay if a different size is desired. Order overlay filler the same height as the adjacent cabinet box. All overlays over 48" tall will be VERTICAL grain.

Overlay Filler will have door style edge profile on top, bottom and both side.

Harmoni's Galley Sink Cabinets are configured for The Galley Workstations. Cabinets are preconfigured to accommodate the Workstation with the addition of a Sink Support Frame. Cabinets can be ordered to be assembled side by side on the jobsite to accommodate any of The Galley Workstations for a unique design.

Workstations must be ordered from The Galley directly, and are not available from Harmoni.

thegalley.com

Workstations must be ordered from The Galley in standard widths, 2 foot to 7 foot wide, and Harmoni's Galley sink cabinets can be ordered in many configurations to accommodate each of these sinks. Take a look at these design Details to see how you can integrate this feature into your design.

Each workstation from The Galley comes with a preconfigured set of working surfaces and accessories to make the sink an efficient working area in your kitchen. See The Galley website for what is included with each size workstation. Storage solutions for these surfaces are available from Harmoni.

NOTE:

There is 3" clearance available inside the Galley Sink for faucet mounting hardware and/or sprayer hose. Cabinet should be ordered with increased depth to accommodate faucet hardware that requires a mounting nut greater than 2³/₄" in diameter.

Correctly-fitting faucet tap hardware is available from The Galley to ensure proper installation in a standard 24" deep cabinet.

DESIGN NOTES

2' and 3' Galley Workstations must be fitted into a single 24" or 36" "No Notch" Sink (with no modifications to cabinet width).

2' Galley Workstation
fitted into a
GSBFH24L-NN

3' Galley Workstation
fitted into a
GSB36-NN

Spanning multiple cabinets with a Galley Workstation requires ordering "Left-Notch" / "Right-Notch" / "Both-Notch" cabinets appropriately to house and support the basin. Example below explains ordering a 7' Galley Workstation in 96" of cabinetry.

7' Galley Workstation fitted into
(1) GSBFH24L-RN + (1) GSBFHR-BN + (1) GSBFHL-BN + (1) GSBFHR-LN

DESIGN NOTES

You must order The Galley's Workstations from one of their Authorized Dealers to ship to your Dealership or job site. Harmoni takes no responsibility for confirming correct installation parameters or cabinet configuration.

Be aware of sink drain and garbage disposal placement. Only order Sink Bases without drawers at these locations to avoid installation issues.

The Galley workstation has a support lip around the outside edge that must be completely supported by the ordered Support Frame. The support frame sets on the cabinet partitions of each cabinet. Workstation should not span further than 12" into a cabinet without a supporting frame

Trying to place a 4' Galley Workstation (48" wide) in three 21" cabinets (63").

DESIGN NOTES

Ordering Harmoni cabinets to hold a Galley workstation is a straight-forward process. To get you up and running quickly, on the next pages, are some of the many possible configurations of cabinets and accessories to make the ordering process even easier! All line items are the appropriate nomenclature for ordering online.

Included in these examples are the appropriate items to house the Galley Culinary Kit, and Bowl and Colander.

All of the configurations presented make these assumptions about the design--

Also shown are Galley Sink Base configurations using a single false front to span the entire width of the Workstation.

B-36

Sink Base Cabinets - Galley

Galley Workstation Base Support Frame

(For flush countertops without a thicker leading edge.

Countertop thickness and edge thickness are equal)

4" tall

THE **GALLEY**
REINVENT YOUR KITCHEN

	Product Code	Price	Cu
24" sink	GSSF-2	100	2
36" sink	GSSF-3	100	2
48" sink	GSSF-4	100	3
60" sink	GSSF-5	100	3
72" sink	GSSF-6	100	4
84" sink	GSSF-7	100	4

Use when
countertop leading edge and
countertop thickness are equal

Galley Workstation Base Support Frame - Configurable

(For countertops with a thicker leading edge.

Countertop thickness and edge thickness are NOT equal)

- use DIM-HBRH nomenclature and specify height

	Product Code	Price	Cu
24" sink	GSSF-2-C	150	2
36" sink	GSSF-3-C	150	2
48" sink	GSSF-4-C	150	3
60" sink	GSSF-5-C	150	3
72" sink	GSSF-6-C	150	4
84" sink	GSSF-7-C	150	4

Use when
Countertop leading edge and
countertop thickness are **NOT** equal

Use this formula to correctly order the Support Frame:

$$\begin{array}{r} \text{Countertop Front} \\ \text{Edge Thickness} \end{array} - \begin{array}{r} \text{Countertop Thickness} \end{array} + 4" = \begin{array}{r} \text{Reduce Frame to} \\ \text{This Dimension} \end{array}$$

Example:

$$\begin{array}{r} 1.50" \\ \text{Countertop Front} \\ \text{Edge Thickness} \end{array} - \begin{array}{r} 0.75" \\ \text{Countertop Thickness} \end{array} + 4" = \begin{array}{r} 4.75" \\ \text{Reduce Frame to} \\ \text{This Dimension} \end{array}$$

* Shelf nosing recommended for cabinets greater than 33" wide

Shelf Nosing

Adds matching 1½" nosing to front edge of ¾" thick shelves. Overall shelf depth remains the same.

PER SHELF

Product Code	Price
SHELF-NOSING	50

Want to add a faceframe to an open cabinet?

Use **B-ADFF**

See Page 81

Read before ordering an Appliance Cabinet!

Cabinets that require an overlay panel for Appliance installation are offered in two options:

- with a preconfigured / precut plywood panel ready for appliance installation
- with a blank plywood panel for field cutting

If you order a cabinet with a preconfigured appliance plywood panel (nomenclature with a “-C” suffix), you must include the appropriate Harmoni Appliance Panel Cut-Out Order Form (available in the Forms Section of the Harmoni PDF Catalog). Harmoni’s responsibility is to configure your panel opening according to your supplied dimensions. If the appliance is not configurable in the allotted space, you will receive notice that your order has been placed on hold pending further clarification by you.

If you order a blank appliance plywood panel (nomenclature with a “-P” suffix), a removable blank panel will be attached to cabinet with Keku clips for field cutting and appliance installation.

Appliance Cabinets ship with complete back.

Read before ordering an Appliance Cabinet!

If you order a cabinet with a preconfigured appliance plywood panel (nomenclature with a "-C" suffix), you must include the appropriate Harmoni Appliance Panel Cut-Out Order Form (available in the Forms Section of the Harmoni PDF Catalog). Harmoni's responsibility is to configure your panel opening according to your supplied dimensions. If the appliance is not configurable in the allotted space, you will receive notice that your order has been placed on hold pending further clarification by you.

If you order a blank appliance plywood panel (nomenclature with a "-P" suffix), a removable blank panel will be attached to cabinet with Keku clips for field cutting and appliance installation.

Cabinet is shipped with complete back.

Warming Drawer Cabinet - Two Drawer 34½” tall • 24” deep

Unfinished interior. Choose a Blank 12” tall Plywood Appliance Panel (P Option) or Preconfigured Plywood Appliance Panel option.

Blind Corner

Blind Corner Cabinet-Drawer on Top 34½" tall • 24" deep

When installed into corner, 3" of center stile remains exposed. To determine width of actual exposed cabinet, reduce cabinet width by 27". See Designer Note about Blind Cabinets on pages B-57.

May not be ordered less than 18" deep in
Push to Open construction

When reducing cabinet width with
DIM-HBRW, reduced dimension comes
from the door end, not the blind end.

“Pulling” a Blind Corner Base Cabinet allows you to maintain symmetry along a wall, while maximizing corner space. This action will allow you to adjust the location of the apparent (or visible) portion of the cabinet. If cabinet is installed into the corner, there is already 3” of clearance built into the cabinet.

Example using a **BCB48L**

When placed all the way into the corner, a 48” wide Blind Corner Base has 24” of width hidden behind the adjacent perpendicular cabinet, 3” of exposed finished surface that acts as a filler, and a door/drawer front that appears as a 21” cabinet.

If you want to reconfigure the door/drawer width of the cabinet, and pull the cabinet off the wall, the cabinet door opening can be adjusted using **B-CONFIGURE** in the Pricing Program, and submitting the appropriate “Blind Corner Modification Form” from the Forms section of the PDF catalog.

For example, a BCB42L can be ordered, entering **B-CONFIGURE**, and reconfigured to have a door 24” wide. The resulting blind portion of the cabinet would then be 15” (and installed 9” off the wall).

Reconfiguring a Blind Corner Cabinet excludes the use of Blind Corner Accessory Shelves. Only standard adjustable shelves can be included.

HOW TO PRICE A NON-STANDARD BASE CABINET

Reduce Width, Height or Depth

This “reduce dimension” nomenclature must be used in the order process to allow for documenting your change to a cabinet. Use the following nomenclature in the Pricing Program, and add your requested dimension to the comments.

Base Reduce Width	DIM-HBRW	no charge (indicate desired Width)
Base Reduce Height	DIM-HBRH	no charge (indicate desired Height)
Base Reduce Depth	DIM-HBRD	no charge (indicate desired Depth)

When specifying a cabinet with reduced height,
include the standard 4” toekick height in your requested dimension.

Cabinets with Drawers may not be ordered less than 18” deep in
Push to Open construction

Increase Depth

Base Increase Depth up to 30”	DIM-HBID-30	\$200 LIST (indicate desired Depth)
-------------------------------	--------------------	-------------------------------------

Adjustable Shelves and Tray Dividers grow with the depth of the cabinet.

Hardware-related cabinet accessories DO NOT increase in depth with the cabinet.

Wooden Drawer Boxes & Roll Outs increase in depth with the cabinet up to a 27” deep cabinet only.

Note regarding Corner Cabinets

Square or Diagonal Corner Cabinets may not be modified in Width or Depth

HOW TO RECONFIGURE A BASE CABINET

Change Drawer and Drawer Front Heights

Use this nomenclature to modify the door and drawer heights of Standard Base Cabinets. Proper form indicating your desired door and drawer front heights must also be submitted. Harmoni will order your cabinet using standard reveals. Forms are available in the Forms section of the Harmoni PDF Catalog.

Configure Base Cabinet **B-CONFIGURE** \$135

Allowable Minimum and Maximum Door and Drawer Front heights for reconfigured cabinets are:

	Min Height	Max Height
Drawer Front	5.9375	24.75
Door	11.75	61.75

ONLY FORMS FILLED OUT ELECTRONICALLY ARE ACCEPTED.

Electronically completed forms will total your door / drawer front heights, including standard reveals and toekick, to allow you to confirm correct final cabinet height.

Forms are available in the Forms tab of the Harmoni PDF catalog.

Notes--

- Reconfiguration not available for Galley Sink Cabinets
- Changing Drawer Front Heights may result in automatic change in Drawer Box Height. (Maximum Drawer Box Height is 9⁵/₈" tall.)
- Five-Piece Drawer Fronts will always have a horizontal grain panel
- Five Piece Drawer Fronts over a height threshold have wider top and bottom rails like corresponding door style. See door section for additional notes.

Custom cabinet configurations, or cabinets above 96" tall can be made by means of stacking cabinets. Combinations of existing Harmoni Wall and Tall cabinets can be ordered to create unique cabinet configurations, or to take overall cabinet heights up to 120" tall. Stacked cabinets are assembled at the factory to ship as one unit under a single finished end panel where applicable.

Ordering stacked cabinets in the Harmoni Pricing Program is straight-forward, but there is a strict process to ensure your intended configuration.

- A stacked cabinet configuration must only be ordered under a single Item Number in the pricing program with associated pieces and modifications entered under that Item number (1.01, 1.02, 1.10, 1.11, etc.)
- Always order stacked cabinets starting with lowest cabinet, and work up.
- Stacked Wall Cabinets must be at least 12" tall
- Stacked Cabinets must all be the same depth
- Finished Ends must be ordered for each unit in the stacked configuration

Oversized cabinets present unique problems in shipping and installation. Make sure your cabinet can be brought into the work site and installed correctly.

Use the nomenclature **W-STACK**, **B-STACK** and **T-STACK** to instruct the factory to join an upper cabinet to a lower cabinet, and adjust the door reveals between stacked units.

	Price	Cu	
W-STACK	no charge	0	Stack cabinets up to 96"
B-STACK	no charge	0	Stack cabinets up to 96"
T-STACK*	725	32	Stack cabinets up to 120"

*Nomenclature for Pricing and Cubes for T-STACK are to account for oversized materials, and additional shipping costs.

Stacking Cabinets

B-77

To order a

- 114" Tall x 24" deep Tall Cabinet
- adjustable shelves in lower section
- a two-door cabinet at top
- tray dividers in top section
- maintain correct reveals between doors
- finished ends on both sides

1.00	1	U3696-24	Utility Cabinet
1.01	1	TFE-B	Finished Ends - Both
1.02	1	USK3624	Utility Shelf Kit
1.03	1	T-STACK	Stack Cabinet
1.10	1	RW3618	Refrigerator Wall Cabinet
1.11	1	WFE-B	Finished Ends - Both
1.12	4	TD-T	Tray Dividers in upper cabinet (4)
1.13	1	FLUSHDOOR-BOT *	Flush Doors to Bottom of Cabinet Box

* Due to material constraints, stacking over 96" may result in double fixed shelves at the point of attachment. Be sure to use appropriate nomenclature to maintain correct door reveals between cabinets.

To order a

- 60" Tall x 12" deep Wall Cabinet (42" lower cabinet / 18" upper cabinet)
- maintain correct reveals between doors
- finished end right

1.00	1	W2442L	Wall Cabinet
1.01	1	WFE-R	Finished Ends - Right
1.02	1	W-STACK	Stack Cabinet
1.10	1	W2418L	Wall Cabinet
1.11	1	WFE-R	Finished Ends - Right
1.12	1	FLUSHDOOR-BOT †	Flush Doors to Bottom of Cabinet Box

† To maintain the correct reveals between the stacked cabinets, be sure to adjust the door heights appropriately.

 BFE-B	 150

Decorative Door on End - Applied at Factory

Matching door is applied to finished end of cabinet, and “captures” door on face. Door is not operational. Includes Finished end charge.

Door is dimensioned by Factory.

Applied doors do NOT include integral hardware.

Product Code	Price	Dr/Dw	Cu
B-DOEL	100	1 / 0	0
B-DOER	100	1 / 0	0

Cabinet Face

Door is mounted:

- $\frac{1}{8}$ " reveal from top and bottom
- $\frac{1}{16}$ " reveal at back
- flush with edge of cabinet door
(door will flush with smallest dimension of doors with decorative edge)

Cabinet Modifications

B-79

Decorative Door on End - Shipped Loose

Full-height door is shipped loose. Door is full dimension shown / ordered. Door is not operational. Top, bottom and one edge are profiled to match door. Opposite edge is not profiled. Finished End is NOT included.

For additional scribe on non-profiled edge, use **B-HESB** nomenclature. To modify / configure decorative door size, use **DIM-HBRW** and/or **DIM-HBRH** to indicate final size.

Applied doors do NOT include integral hardware.

Since these doors are shipped loose, and NOT attached to the cabinet at the factory, order door as a separate item, and **not as an attachment or sub-item to the cabinet.**

Cabinet Modifications

B-81

Reduce Drawer Box Depth

Drawer Box depth can be reduced to 18" or 15" deep. (Note that a standard 24" deep cabinet has an approximately 21" deep drawer box.)

Use drawer-specific nomenclature to indicate which drawer boxes are to be reduced.

Reduce to 15" deep

Product Code	Price	
B-RDB15-1	50	Reduce Top Drawer Box
B-RDB15-2	50	Reduce Second Drawer Box
B-RDB15-3	50	Reduce Third Drawer Box
B-RDB15-4	50	Reduce Fourth Drawer Box
B-RDB15-5	50	Reduce Fifth Drawer Box

Reduce to 18" deep

Product Code	Price	
B-RDB18-1	50	Reduce Top Drawer Box
B-RDB18-2	50	Reduce Second Drawer Box
B-RDB18-3	50	Reduce Third Drawer Box
B-RDB18-4	50	Reduce Fourth Drawer Box
B-RDB18-5	50	Reduce Fifth Drawer Box

Delete Door

Door is deleted from cabinet. Per Door.

Removes one door charge per implementation.

Does not change cabinet construction or remaining door size(s).

DELETE-BASE-DOOR

Delete Drawer Box

Drawer Box is deleted from cabinet, and Drawer Front is secured to cabinet with clips.

Use drawer-specific nomenclature to indicate which drawer boxes are to be deleted.

NO CHARGE.

B-DDB1	Delete Top Drawer Box
B-DDB2	Delete Second Drawer Box
B-DDB3	Delete Third Drawer Box
B-DDB4	Delete Fourth Drawer Box
B-DDB5	Delete Fifth Drawer Box

Roll Out Over Trash Bin or Drawer Box

3" Scooped ROT is installed over large lower drawer boxes (not for short top drawer boxes). Drawer Box Height is reduced. Scooped Roll Out rests behind drawer front, and pulls out independently.

Specify ROT placement using nomenclature.

3" ROT installed over Top/Middle Drawer Box

	Product Code	Price
	ROTODMID-B	250
> 36" - High Capacity	ROTODMID-HC-B	350

3" ROT installed over Bottom Drawer Box

	Product Code	Price
	ROTODBOT-B	250
> 36" - High Capacity	ROTODBOT-HC-B	350

Delete Drawer Front and Drawer Box

Drawer Front and Drawer Box are deleted from cabinet. One drawer front deducted.

Use drawer-specific nomenclature to indicate which drawer boxes / drawer fronts are to be deleted.

NO CHARGE.

B-DDFDB1	Delete Top Front and Drawer Box
B-DDFDB2	Delete Second Front and Drawer Box
B-DDFDB3	Delete Third Front and Drawer Box
B-DDFDB4	Delete Fourth Front and Drawer Box
B-DDFDB5	Delete Fifth Front and Drawer Box

B-82

Cabinet Modifications

Change a Five Piece Drawer Front to a Slab Front

Change a standard 6" or 12" tall five-piece drawer front to a slab front. Per Drawer Front- use once per drawer front changed. This is a no-charge item, but the cost of the Five-Piece drawer front is not credited.

Product Code	Price
SLAB-DF-1	n/c
SLAB-DF-2	n/c
SLAB-DF-3	n/c

Cabinet Modifications

B-83

Add a Faceframe to an Open Cabinet

A Hardwood Faceframe can be ordered and applied to an Open Base Cabinet. Faceframe will maintain door edge, and typical reveals at top, bottom and sides. Inside edge of faceframe is square.

Stiles and Rails of faceframe are 1³/₈" wide. Cabinet deck will flush to top of bottom rail.

HARDWOODS ONLY.

Faceframe outside edge matches door profile

Product Code	Price
B-ADDF	200

Delete False Front

Removes the False Front from a Sink Base. Height of lower door / drawer fronts does not change. One drawer front reduction.

No Charge

Product Code
DELETE-FALSEFRNT

Delete Shelves

Shelves and line boring are removed from cabinet. No Charge.

DELETE-SHELVES

Delete Deck

Delete bottom deck from cabinet.

DELETE-DECK	30
--------------------	----

Shelf Nosing

Adds matching 1¹/₂" nosing to front edge of ³/₄" thick shelves. Overall shelf depth remains the same.

PER SHELF

Product Code	Price
SHELF-NOSING	50

Shelves without Line Boring

Line boring for shelves is removed, and shelf placement must be done on job site. Shelves still ship with job, and are wrapped and shipped separate from cabinet.

If cabinet has upper and lower sections, indicate section(s) to remove line boring.

Product Code	Price
NO BORE - UPPER	50
NO BORE - BOTTOM	50

Ordering Island End Panels

On the following pages are two types of Island Ends that can be used for applications such as capping off the end of an island. Aesthetically, these ends are used to finish off the end of a cabinet run, so that both the edge of the cabinet, as well as the edge of doors and drawer fronts, are concealed.

For example, if an island is assembled using two 24" deep cabinets set flush back-to-back, the Island End should be ordered at a depth that includes both the two 24" deep cabinets, the doors/drawer fronts, and the bumper pad(s).

$$\begin{aligned} \text{Cabinet Box Depth} \times 2 &= 48" \\ \text{Door Edge Thickness} \times 2 &= 1.5" \\ \text{Bumper Pad Thickness} \times 2 &= 0.25" \end{aligned}$$

$$\text{Typical Island End Ordered Depth} = 49.75"$$

Use **DIM-HBRD** to reduce the depth of the Island End

Horizontal Cross Section

Special Note if you are using the Chartwell Door Style

The Chartwell door has a detailed outside edge that is less than a typical door. The flat edge of a Chartwell door or drawer front is 9/16", rather than the typical 3/4". The depth of the Island End should be adjusted accordingly.

$$\begin{aligned} \text{Cabinet Box Depth} \times 2 &= 48" \\ \text{Chartwell Door Edge Thickness} \times 2 &= 1.125" \\ \text{Bumper Pad Thickness} \times 2 &= 0.25" \end{aligned}$$

$$\text{Chartwell Island End Ordered Depth} = 49.375"$$

Use **DIM-HBRD** to reduce the depth of the Island End

Horizontal Cross Section using Chartwell

Island End Cap

1½", 3" or 6" wide ends. Available in multiple depths. Height is 35½" or 41½" to allow for scribe to floor. Use **DIM-HBRD** to adjust depth of panel. All sides finished. Top and Bottom are open.

Vertical Grain Only.

See Designer Note on page B-89 for tips on ordering.

Wainscot Island Ends

B-93

Wainscot Island End Cap

1½", 3" or 6" wide ends. Height is 35½" or 41½" to allow for scribe to floor. All sides finished. Default depth is based on panel count, but can be reduced (with **DIM-HBRD** nomenclature). Top and Bottom are open.

Bottom Rail includes Toe Kick Height (4") and added scribe to floor.

Adds door charges to order. Door Style will match order. Cope and Stick Doors Only.

Multiple Panels are equal width.

See Designer Note on page B-89 for tips on ordering.

Intentionally Blank

Specifying the Drawer Insert accessories is based off of units or “building blocks” that are $6\frac{5}{8}$ ” wide. Some inserts are one-unit wide, and others are two-units wide ($13\frac{1}{4}$ ”). The remaining “unused” space MUST be filled with Width Extenders to span the entire width of the drawer, and keep everything in place for use. The minimum Width Extender would be $2\frac{13}{16}$ ”. The maximum width of unused space should not exceed 9”.

DO NOT MIX MODULAR INSERTS WITH FITTED DRAWER ACCESSORIES

Depth Extenders will always be needed in top drawers to allow easy removal of Drawer Inserts for cleaning, as well as proper fitting of Modular Drawer Inserts.

Modular Drawer Inserts

B-97

When filling a drawer with these inserts, you need to know how many of these units you can fit in a drawer. This table will help you with that calculation, as well as knowing the remaining space after inserting the Width Extender.

Cabinet Width	EuroJoint Drawer Box		Avantech Drawer Box	
	# of Insert Units	Remaining Space	# of Insert Units	Remaining Space
15	1	5.125	1	3.75
16	1	6.125	1	4.75

Cabinet Accessories

to add to a standard cabinet

Reduce Roll-Out Depth

Roll-Out Tray depth can be reduced by 3" or 6". (Note that a standard 24" deep cabinet has an approximately 21" deep Roll-Out.)

Use position-specific nomenclature to indicate which roll-outs are to be reduced in depth.

Reduce depth 3"

EuroJoint = 18.25" / Avantech = 19.3125"

Reduce depth 6"

EuroJoint = 15.5" / Avantech = 15.375"

Product Code	Price

Swing-up Mixer Shelf

For cabinets 18" to 24" wide. Shelf swings up and locks in place. Space remains at bottom for a 3" ROT on fixed boots in a 34½" tall cabinet. 1½" thick Beech shelf. NOTE: Available in full height base cabinetry only.

Product Code	Price
BMS-B	550

Removable Tray Dividers

½" thick, removable. Slides within a "U" hardwood moulding that is screwed to top and bottom of cabinet opening. Divider matches cabinet interior. Dividers are evenly spaced in opening. Per divider.

Product Code	Price
TD-BASE	65

Repositionable Tray Divider Insert

Insert has ½" thick dividers that are removable/repositionable. Matches cabinet interior. Rests on cabinet deck with clearance for hinges. Dividers are evenly spaced. Overall 18¾" tall, and may be reduced in height. Insert takes the place of lower shelf(s). Cabinets with doors 27" and greater that have shelves deleted by the TRAY space, will have the remaining shelf/shelves moved up as space allows and will be evenly spaced. Additional dividers are available.

If you order a cabinet with a preconfigured appliance plywood panel (nomenclature with a "-C" suffix), you must include the appropriate Harmoni Appliance Panel Cut-Out Order Form (available in the Forms Section of the Harmoni PDF Catalog). Harmoni's responsibility is to configure your panel opening according to your supplied dimensions. If the appliance is not configurable in the allotted space, you will receive notice that your order has been placed on hold pending further clarification by you.

Cabinet is shipped with complete back, and back can be cut out in the field for proper appliance installation.

Make yourself aware of the increased height of Tall Cabinets when they are being installed, and make sure there is proper clearance on the Job Site.

Use this chart as a guide when ordering tall cabinetry with attached leveler feet.

Cabinet Depth A	Cabinet Depth B	Tipped Height C
12	84	84 ⁵ / ₈
15	84	85
18	84	85 ¹ / ₂
21	84	86 ¹ / ₈
24	84	86 ⁷ / ₈
12	90	90 ¹ / ₂
15	90	90 ⁷ / ₈
18	90	91 ³ / ₈
21	90	92
24	90	92 ⁵ / ₈
12	93	93 ¹ / ₂
15	93	93 ⁷ / ₈
18	93	94 ³ / ₈
21	93	94 ⁷ / ₈
24	93	95 ⁵ / ₈
12	96	96 ¹ / ₂
15	96	96 ⁷ / ₈
18	96	97 ³ / ₈
21	96	97 ⁷ / ₈
24	96	98 ¹ / ₂

Tipped height is computed figuring in a 2" toe depth.

Intentionally Blank

HOW TO PRICE A NON-STANDARD TALL CABINET

Reduce Width, Height or Depth

This “reduce dimension” nomenclature must be used in the order process to allow for documenting your change to a cabinet. Use the following nomenclature in the Pricing Program, and add your requested dimension to the comments.

Tall Reduce Width	DIM-HTRW	no charge (indicate desired width)
Tall Reduce Height	DIM-HTRH	no charge (indicate desired height)
Tall Reduce Depth	DIM-HTRD	no charge (indicate desired depth)

When specifying a cabinet with reduced height,
include the standard 4” toekick height in your requested dimension.

Increase Depth

Tall Increase Depth up to 30”	DIM-HTID-30	\$400 LIST (indicate desired Depth)
-------------------------------	-------------	-------------------------------------

Adjustable Shelves and Tray Dividers grow with the depth of the cabinet.

Hardware-related cabinet accessories DO NOT increase in depth with the cabinet.

Wooden Drawer Boxes & Roll Outs increase in depth with the cabinet up to a 27” deep cabinet only.

HOW TO RECONFIGURE A TALL CABINET

Change Drawer and Drawer Front Heights

Use this nomenclature to modify the door and drawer heights of Standard Tall Cabinets. Proper form indicating your desired door and drawer front heights must also be submitted. Harmoni will order your cabinet using standard reveals. Forms are available in the Forms section of the Harmoni PDF Catalog.

Configure Tall Cabinet

T-CONFIG

\$135

Allowable Minimum and Maximum Door and Drawer Front heights for reconfigured cabinets are:

	Min Height	Max Height
Drawer Front	5.9375	24.75
Door	11.75	61.75

ONLY FORMS FILLED OUT ELECTRONICALLY ARE ACCEPTED.

Electronically completed forms will total your door / drawer front heights, including standard reveals and toekick, to allow you to confirm correct final cabinet height.

Forms are available in the Forms tab of the Harmoni PDF catalog.

Notes--

- Hardwood Doors over 48" tall (including Open for Glass) will have a centered mid rail
- Changing Drawer Front Heights may result in automatic change in Drawer Box Height. (Maximum Drawer Box Height is 9.625" tall.)
- Five-Piece Drawer Fronts will always have a horizontal grain panel
- Five Piece Drawer Fronts over a height threshold have wider top and bottom rails like corresponding door style. See door section for additional notes.

Custom cabinet configurations, or cabinets above 96" tall can be made by means of stacking cabinets. Combinations of existing Harmoni Wall and Tall cabinets can be ordered to create unique cabinet configurations, or to take overall cabinet heights up to 120" tall. Stacked cabinets are assembled at the factory to ship as one unit under a single finished end panel where applicable.

Ordering stacked cabinets in the Harmoni Pricing Program is straight-forward, but there is a strict process to ensure your intended configuration.

- A stacked cabinet configuration must only be ordered under a single Item Number in the pricing program with associated pieces and modifications entered under that Item number (1.01, 1.02, 1.10, 1.11, etc.)
- Always order stacked cabinets starting with lowest cabinet, and work up.
- Stacked Wall Cabinets must be at least 12" tall
- Stacked Cabinets must all be the same depth
- Finished Ends must be ordered for each unit in the stacked configuration

Oversized cabinets present unique problems in shipping and installation. Make sure your cabinet can be brought into the work site and installed correctly.

Use the nomenclature **W-STACK**, **B-STACK** and **T-STACK** to instruct the factory to join an upper cabinet to a lower cabinet, and adjust the door reveals between stacked units.

	Price	Cu	
W-STACK	no charge	0	Stack cabinets up to 96"
B-STACK	no charge	0	Stack cabinets up to 96"
T-STACK*	725	32	Stack cabinets up to 120"

*Nomenclature for Pricing and Cubes for T-STACK are to account for oversized materials, and additional shipping costs.

Stacking Cabinets

T-59

To order a

- 114" Tall x 24" deep Tall Cabinet
- adjustable shelves in lower section
- a two-door cabinet at top
- tray dividers in top section
- maintain correct reveals between doors

Decorative Door on End - Applied at Factory

Doors are applied to finished end of cabinet, “capture” door on face, and match door heights on face of cabinet. Door is not operational. Includes Finished end charge.

- Tall Hardwood Doors (> 48” tall) will be vertically split with equal panels.
- Tall Doors (> 42” tall) not available in horizontal grain materials

Door is dimensioned by Factory.

Applied doors do NOT
include integral hardware.

Product Code	Price	Dr	Cu
T-DOEL	250	2	0
T-DOER	250	2	0

Cabinet Face

Door is mounted:

- $\frac{1}{8}$ ” reveal from top and bottom
- $\frac{1}{16}$ ” reveal at back
- flush with edge of cabinet door
(door will flush with *smallest dimension of doors with decorative edge*)

Decorative Door on End - Shipped Loose

Full-height door is shipped loose. Door is full dimension shown / ordered. Door is not operational. Top, bottom and one edge are profiled to match door. Opposite edge is not profiled. Finished End is NOT included.

For add additional scribe on non-profiled edge, use **T-HESB** nomenclature. To modify / configure decorative door size, use **DIM-HTRW** and/or **DIM-HTRH** to indicate final size.

- Tall Door height cannot exceed 92" tall
- Tall Hardwood Doors (> 48" tall) will be vertically split with equal panels
- Tall Doors (> 42" tall) not available in horizontal grain materials

Applied doors do NOT include integral hardware.

Since these doors are shipped loose, and NOT attached to the cabinet at the factory, order door as a separate item, and not as an attachment or sub-item to the cabinet.

H-FFB-T 1120

Shelves without Line Boring

Line boring for shelves is removed, and shelf placement must be done on job site. Shelves still ship with job, and are wrapped and shipped separate from cabinet.

If cabinet has upper, middle and/or lower sections, indicate section(s) to remove line boring.

Product Code	Price
NO BORE - UPPER	50
NO BORE - MIDDLE	50
NO BORE - BOTTOM	50

Loose Tall Doors

For repairs or field application. Doors are not drilled for hinges. Up to 26" x 92".

	Product Code	Price	Dr	Cu
Tall Door	TDOOR-LOOSE	75	2	2

Delete Door

Door is deleted from cabinet. Per Door.

Removes one door charge per implementation.
Does not change cabinet construction or remaining door size(s).

- DELETE-TALL-TOP
- DELETE-TALL-BOTTOM

Delete Shelves

Shelves and line boring are removed from cabinet. No Charge.

- DELETE-SHELVES

Repositionable Tray Divider Insert

Insert has $\frac{1}{2}$ " thick dividers that are removable/repositionable. Matches cabinet interior. Rests on cabinet deck with clearance for hinges. Dividers are evenly spaced. Overall $18\frac{3}{4}$ " tall, and may be reduced in height. Insert takes the place of lower shelf(s). Cabinets with doors 27" and greater that have shelves deleted by the TRAY space, will have the remaining shelf/shelves moved up as space allows and will be evenly spaced. Additional dividers are available.

LH2184L-A	1655	1	1	0	23
LH2184R-A	1655	1	1	0	23

Not available in Horizontal-Grain Slab Doors

- Cabinet back is modified to accommodate pre-installed hanging rail mechanisms in upper back corners of cabinet.
- Steel rail (provided) is mounted to studs with pan head screws, and cabinet hangs on steel rail. Do NOT fasten hanging rail solely to sheetrock.
- Hanging mechanism provides both vertical and depth adjustment.

Overall vertical adjustment = 5/8"

Overall depth adjustment = 9/16"

Increased standard cabinet depth is to allow enough clearance behind drawer box for hanging mechanism.

Reducing cabinet depth will require reducing the depth of the drawer box and is done by factory automatically.

Drawer box depths are reduced in 3" increments.

HOW TO PRICE A NON-STANDARD BASE CABINET

Reduce Width, Height or Depth

This “reduce dimension” nomenclature must be used in the order process to allow for documenting your change to a cabinet. Use the following nomenclature in the Pricing Program, and add your requested dimension to the comments.

Vanity Reduce Width	DIM-HVRW	no charge (indicate desired width)
Vanity Reduce Height	DIM-HVRH	no charge (indicate desired height with toe)
Vanity Reduce Depth	DIM-HVRD	no charge (indicate desired depth)

For Suspended Vanities Base and Linen Cabinets

Suspended Vanity Reduce Height	DIM-HSVRH	no charge (indicate desired overall height)
--------------------------------	-----------	---

Cabinets with Drawers may not be ordered less than 18” deep with Avantech Guides

Increase Depth

Base Increase Depth up to 30”	DIM-HBID-30	\$200 LIST (indicate desired Depth)
-------------------------------	-------------	-------------------------------------

Adjustable Shelves and Tray Dividers grow with the depth of the cabinet.

Hardware-related cabinet accessories DO NOT increase in depth with the cabinet.

Wooden Drawer Boxes & Roll Outs increase in depth with the cabinet up to a 27” deep cabinet only.net only.

Decorative Door on End - Shipped Loose

Full-height door is shipped loose. Door is full dimension shown / ordered. Door is not operational. Top, bottom and one edge are profiled to match door. Opposite edge is not profiled. Finished End is NOT included.

For additional scribe on non-profiled edge, use **B-HESB** nomenclature. To modify / configure decorative door size, use **DIM-HBRW** and/or **DIM-HBRH** to indicate final size.

- Tall Hardwood Doors will be vertically split with equal panels.
- Tall Doors (> 48" tall) not available in horizontal grain materials

Applied doors do NOT include integral hardware.

Since these doors are shipped loose, and NOT attached to the cabinet at the factory, order door as a separate item, and not as an attachment or sub-item to the cabinet.

Pricing Non-Standard Cabinets . . . 15

Tall Cabinets. 12

**NOTE**

No finished ends are available. Cabinet ends must be capped by End Panels.
To allow for proper termination of C-Channel extrusion, Base cabinets and Tall cabinets should not be installed side by side without an end panel or corner filler.

No reductions in height are available.

C-Channel Cabinetry ships to the job site without the aluminum extrusion mounted into the cabinet box. The aluminum extrusion must be ordered using the Pricing Program nomenclature.

A	1/2" back dadoed into end panels.
B	3/4" stretchers screwed into end panels
C	3/4" end panels (No finished ends are available)
D	3/4" bottom shelf. Shelf is screwed into end panels.
E	3/4" thick adjustable shelves.
F	cabinet modified to accept C-Channel Use Applied End Panels to terminate a cabinet run. (No finished ends are available)
G	cabinet depth does <u>not</u> include door/ drawer front thickness and bumper pad

HOW TO PRICE A NON-STANDARD CABINET

Reduce Width or Depth

This “reduce dimension” nomenclature must be used in the order process to allow for documenting your change to a cabinet. Use the following nomenclature in the Pricing Program, and add your requested dimension.

No reductions in height are available.

Base Reduce Width	DIM-HBRW	no charge (indicate desired width)
Base Reduce Depth	DIM-HBRD	no charge (indicate desired depth)

Tall Reduce Width	DIM-HTRW	no charge (indicate desired width)
Tall Reduce Depth	DIM-HTRD	no charge (indicate desired depth)

Increase Depth

Base Increase Depth up to 30”	DIM-HBID-30	\$200 LIST (indicate desired Depth)
Tall Increase Depth up to 30”	DIM-HTID-30	\$400 LIST (indicate desired Depth)

Adjustable Shelves and Tray Dividers grow with the depth of the cabinet.

Hardware-related cabinet accessories DO NOT increase in depth with the cabinet.

Wooden Drawer Boxes & Roll Outs increase in depth with the cabinet up to a 27” deep cabinet only.

C-Channel End Panels (with return to scribe to wall)

- door is mitered and wrapped around end panel
- leading edge of end panel flushes with door/drawer front on adjacent cabinet
- scribe at wall = 1/8" (use Extend Side Back for additional scribe)
- panels are 2 3/8" wide
- aluminum miter is protected by a small plastic bead
- door counts are in addition to end panel cost

See next page for notes on ordering
C-Channel Island End Panels

Ordering C-Channel Island End Panels

To order a proper fit of a C-Channel Island End Panel, add the cabinet depths, as well as the thickness of the doors/drawers and bumper pad.

Cabinet A Depth	21"
Cabinet A Door + Bumper Pad	0.875"
Cabinet B Depth	24"
Cabinet B Door + Bumper Pad	0.875"
Figured Depth	46.75"

Recommendation
Add 1/4" to the ordered depth of the Island End Panel, and shim between the backs of the cabinets to bring the door/drawer fronts in line with the front and back edges of the end panel.

Figured Depth	46.75"
Shim Space	0.25"
Recommended Depth	47"

Order--
IBE56D-CC
DIM-HBRD (to 47")

C-Channel Extrusion

C-19

C-Channel Aluminum Extrusion 96" Lengths

- hardware to mount extrusion to cabinet is included

C-Channel Cabinetry ships to the job site without the aluminum extrusion mounted into the cabinet box. The aluminum extrusion must be ordered using the Pricing Program nomenclature.

For top channel of base cabinets only

NOTE

When ordering panel material, dimension nomenclature is always stated as:

Width of Panel x Length of Panel

Length of a panel always goes to the grain direction.

Example: 3/4F1S**2436**

Example: 3/4F1S**3624**

Finished Sheet Plywood - NO EDGEBOARDING

Available in preset maximum sizes in 1/4" and 3/4" thickness. Submit Panel Order Form (found at the end of this catalog section) with intended dimensions.

Wainscot Panels

Cope and Stick Door Design Only. Check availability in Options section on door pages. Wainscot includes appropriate door count, in addition to the indicated price.

Single panel high. Overall panel sizes no greater than 42" tall. Wainscot Panels are finished one face, all edges, and 2" of back on each side. Wainscot can have matching edge detail on all edges.

Requires submission of a Harmoni Panel Order Form (available in the Forms Section of the Harmoni PDF Catalog). If a wide bottom rail (WBR) is needed to align with adjacent doors, indicate on the form. WBR option on Panel Order Form removes edge detail from bottom. Failure to submit the required form will place your order on hold until form is submitted.

Decorative Contemporary Boxed Hood

Entire exterior of hood is finished. Upper portion of hood is removable for installation of electrical and ducting. Sides and fixed shelf in bottom 2” of hood opening are lined with stainless-look aluminum laminate.

- Add 3/4” to ordered depth for overall depth of hood with trim.
- Add 1 1/2” to ordered width for overall width of hood with trim.

Hood is offered 24” deep in standard widths and depths, but may be reduced in width, height and depth using standard **DIM** nomenclature. Changes in height are made to the upper removable section only. Lower portion cannot be modified.

Available area for liner is 1 5/8” less than the overall width and depth of the plywood box dimensions (not including the trim).

Intentionally Blank

SERENITY IN FORM. SIMPLICITY IN DESIGN

Appliance Panels

Intentionally Blank

Appliance Panels may be ordered as configured “packages” for convenience, and to ensure grain matching of vertical-grain slab doors.

General:

- Images on following pages are generalized drawings, and are not necessarily linked to any specific appliance manufacturer. You must submit a Panel Order Form for each appliance. Nomenclature is for indicated DOORS and DRAWER FRONT COUNTS ONLY, and does NOT include backer panels (if necessary)
- Additional routing or prep on back of door is not available

Grain Matching

- Vertical-grain Slab doors are grain-matched

Grain Direction:

- Tall Appliance Panel configurations in horizontal-grain slab doors are NOT available

Open Appliance Frame Doors

- Appliance Frame Door stiles and rails MATCH DOOR STYLE DIMENSIONS
- Slab Doors will have 2½” wide stiles and top rail.
- Stiles and Rails may be specified as needed, per manufacturer’s specifications

Hardwood Drawer Fronts

- Hardwood Drawer Fronts (if part of configuration) default to horizontal grain panels. Drawer fronts over 30” wide can be made with midstile & vertical grain panels. Use available “VGDF” option.

Stile & Rail Door Styles

- Oversize Doors will have mid rail / stile (see next page)

Grill Panels

- If part of configuration, five-piece grill panels will always be horizontal grain.

Doors with Integral Pulls

- Appliance Panels using integral pull door styles are produced WITHOUT the integral pull. Alternate hardware must be provided by Dealer

C-Channel

- Appliance Panels ordered on C-Channel jobs will be produced without integral pull (if any), and additional dealer-supplied door pull hardware must be installed on-site.

Appliance Panels using integral pull door styles are produced
WITHOUT the integral pull.

To order a door with integral pull to be applied to an under-counter
appliance, order **LOOSE-DOOR**

Five-Piece Hardwood Doors

Oversized Vertical-Grain Hardwood Appliance Panels (30" wide or greater) will be split into two panels with a vertical stile in order to control panel integrity. There are no mid-rails on Vertical-Grain Appliance Panels.

Vertical-Grain Panels are
split with mid-stile

Horizontal-Grain Panels
are split with mid-rail

Drawer Fronts
(if part of
configuration) are
produced with
horizontal grain.

Optional Configurations

Optional
Vertical Grain Drawer Front
Configuration

Upper Panels and Lower Drawer Fronts
are all split with mid-stile. Grain on
Drawer Fronts is Vertical.

To order, select the “VGDF” option on the
Appliance Panel Order Form

NO CHARGE

Optional
Vertical Grain Panel with
Added Mid-Rail

Panel is split with centered mid-rail.

To order, enter **AP-ADDRAIL**
to your Harmoni order

Finished Backer Panels and Spacer panels (if needed) can be ordered. Panels will be ordered to your supplied dimensions. You must submit the Harmoni Panel Order Form, or use the dimension modification nomenclature **DIM-HWRW** and/or **DIM-HWRH**. Otherwise, panels will come the size indicated in the product code.

Panels are SHIPPED LOOSE, and must be applied in the field.
